

Actuator / Governor Replacement Kits

Engine Manufacturer: Caterpillar

Engine Model: G379

30000-1056: Includes parts needed to install a **ProAct ISC II** on engine replacing the actuator or governor. Governor applications require MPU and MPU harness. The ProAct ISC control panel, P/N 30000-1032 is recommended.

Engine Model: G398/399

30000-1030: Includes parts needed to install a **ProAct ISC III** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1029.

Engine Model: G3406

30000-1022: Includes parts needed to install a **ProAct ISC II** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Model: G3408

30000-1010: Includes parts needed to install a **ProAct ISC II** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Model: G3512

30000-1034: Includes parts needed to install a **ProAct ISC II** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Model: G3516

30000-1019: Includes parts needed to install a **ProAct ISC III** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1029.

Engine Manufacturer: Cummins

Engine Model: KTA 19 GC

30000—1015: Includes parts needed to install a **ProAct ISC II** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Manufacturer: Detroit Diesel

Engine Model: 16V92

30000—1016: Includes parts needed to install a **ProAct ISC II** on engine replacing the Governor on generator drive applications. This kit is complete and does not require the purchase of any additional items.

Engine Manufacturer: Waukesha

Engine Model: 5790, 5794, 7042, 7044 VHP- GSI

These are V type engines with two IMPCO 600 carburetors. The Butterfly shafts for the carburetors on the V engines are tied together with a shaft thru the block of the engine. For Actuator or Governor applications, use a ProAct ISC III, P/N 8404-213 and kit P/N **30000-1009** to mount on the IMPCO 600 carburetor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Model: 3521, 3525 VHP- GSI

These are in-line 6 cylinder engines with one IMPCO 600 carburetor. For Actuator or Governor applications use kit P/N **30000-1054**. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.

Engine Model: F18

30000-1039: Includes parts needed to install a **ProAct ISC II** on engine replacing the Actuator or Governor. Governor applications require MPU and Wiring Harness, P/N 300-036 and ProAct ISC Control Panel, P/N 30000-1032.
